

DOCTORS PROFESSIONAL & WORKFORCE NETWORK

Product Concept & Complete Business Plan

1. Product Introduction

Hum ek **doctor-only professional networking and workforce platform** banana chahte hain.

Aaj professional networking ke liye LinkedIn available hai, lekin LinkedIn har profession ke liye bana hua ek generic platform hai. Doctor ki professional identity, medical registration, specialization, clinical interests, hospital experience, job availability aur locum availability jaise doctor-specific professional data ko LinkedIn deeply understand nahi karta.

Humara platform **sirf doctors aur verified healthcare institutions ke liye** hoga.

Simple words me:

A professional network, career marketplace and workforce network built exclusively for doctors.

Platform ka purpose doctors ko ek digital professional identity dena aur hospitals ko suitable doctors discover aur hire karne me help karna hai.

2. Problem We Are Solving

India me doctors aur hospitals ke beech professional connection ka system fragmented hai.

Doctor professional networking ke liye LinkedIn use karta hai.

Jobs ke liye multiple job portals use karta hai.

Locum ya temporary opportunities WhatsApp groups me circulate hoti hain.

Hospitals doctors ko references, recruiters, WhatsApp groups aur phone calls ke through search karte hain.

Doctor ka CV PDF format me alag-alag hospitals ko bheja jata hai.

Doctor ki current professional availability ka koi structured network nahi hota.

Example:

Ek hospital ko urgently kal raat ke liye Anesthesiologist chahiye.

Hospital HR normally:

WhatsApp groups me message karega.

Known doctors ko call karega.

Recruiters se contact karega.

Personal references use karega.

Problem ye hai ki hospital ko ye nahi pata:

Kaunsa doctor available hai?

Kaunsa doctor nearby hai?

Kaunsa doctor locum duties accept karta hai?

Kaunsa doctor verified hai?

Doctor ki actual specialization kya hai?

Hum isi problem ko technology ke through solve karna chahte hain.

3. Product Vision

Humara long-term vision hai:

To build India's professional and workforce network for doctors.

Platform doctor ke complete professional career ko connect karega.

Doctor ki:

Professional Identity

Professional Network

Medical Community

Career Opportunities

Job Search

Professional Availability

Locum Opportunities

Hospital Connections

sab ek single platform par available honge.

Humara platform patient treatment ya appointment booking platform nahi hoga.

Hum doctors ke **professional career aur healthcare workforce** par focus karenge.

4. Target Users

Platform ke primary users do categories me honge.

Doctors

Platform initially sirf registered medical doctors ke liye hoga.

Examples:

MBBS Doctors

Medical Officers

General Physicians

Resident Doctors

Senior Residents

MD Doctors

MS Doctors

DNB Doctors

Specialists

Super Specialists

Consultants

Visiting Consultants

Platform ke first version me medical students, nurses aur patients include nahi honge.

Humara initial focus sirf doctors hoga.

Hospitals and Healthcare Institutions

Healthcare institutions platform ko doctor discovery aur recruitment ke liye use karenge.

Examples:

Hospitals

Multi-Speciality Hospitals

Clinics

Nursing Homes

Medical College Hospitals

Healthcare Groups

Hospitals apna verified professional profile create kar sakenge.

5. Product Structure

Platform ke three major pillars honge.

Doctor Professional Network

Doctor Career Marketplace

Doctor Availability Exchange

Ye teen modules milkar ek complete doctor professional ecosystem create karenge.

MODULE 1

DOCTOR PROFESSIONAL NETWORK

Ye platform ka professional community section hoga.

Is module ka objective doctors ko ek professional digital identity aur doctor-only networking environment provide karna hai.

6. Doctor Professional Identity

Har doctor ka ek detailed professional profile hoga.

Ye normal social media profile nahi hoga.

Ye doctor ka **Digital Professional Identity Profile** hoga.

Doctor profile me information hogi:

Doctor Name

Professional Profile Photo

Medical Qualification

Primary Specialization

Secondary Clinical Interests

Medical Registration Details

Professional Headline

Professional Summary

Total Experience

Current Hospital

Previous Hospital Experience

Professional Location

Languages

Career Preferences

Professional Availability

Doctor Verification Status

Example:

Dr Ahmed Khan

Verified Doctor

MBBS, MD Medicine

Consultant Physician

6 Years Experience

Moradabad, Uttar Pradesh

Clinical Interests:

Diabetes

Hypertension

Critical Care

Current Hospital:

ABC Multispeciality Hospital

Doctor ka professional profile uske digital CV ki tarah work karega.

Doctor ko har hospital me repeatedly CV upload karne ki requirement nahi hogi.

7. Doctor Verification

Platform par professional trust bahut important hoga.

Doctor profiles ke verification levels honge.

Unverified

Verification Pending

Verified Doctor

Doctor verification medical registration details ke basis par ki jayegi.

Doctor provide karega:

Medical Registration Number

Medical Council

Registration Year

Required Professional Documents

Verification complete hone ke baad doctor profile par:

Verified Doctor

badge show hoga.

Verified doctors ko platform par higher professional trust milega.

8. Professional Status

Platform ka ek unique feature hoga:

Doctor Professional Status

LinkedIn par "Open to Work" feature available hai.

Hum doctor profession ke according multiple professional statuses provide karenge.

Doctor choose kar sakega:

Available Now

Open to Full-Time Opportunities

Available for Locum

Available as Visiting Consultant

Open to Part-Time Opportunities

Not Looking for Opportunities

Doctor apna status kabhi bhi change kar sakega.

Example:

Dr Ahmed

Available for Locum

Hospital verified doctors ko professional status ke according discover kar sakega.

9. Doctor Professional Network

Doctors platform par doosre doctors ko discover kar sakege.

Doctors:

Connect Request bhej sakenge.

Connection accept kar sakenge.

Doctor profile follow kar sakenge.

Professional message bhej sakenge.

Professional network build kar sakenge.

Example:

Ek cardiologist apne city ke anesthesiologists, physicians aur surgeons ke saath professional network create kar sakta hai.

Platform ka purpose professional collaboration aur career networking hoga.

10. Doctor Professional Feed

Platform me doctor-only professional feed hoga.

Generic social media content ko discourage kiya jayega.

Feed mainly healthcare professional topics ke liye hoga.

Post categories:

Medical Updates

Clinical Discussions

Research

Medical Technology

Career

Conference

CME

Professional Achievements

Healthcare Industry

Professional Discussion

Doctor post create karte waqt post category select karega.

Isse feed professionally focused rahega.

11. Clinical Discussions

Doctors clinical topics discuss kar sakenge.

Example:

A doctor may share a professional discussion around an ECG pattern or a general clinical scenario.

Clinical discussions ke liye strict patient privacy rules honge.

Doctors ko directly identifying patient information share karne ki permission nahi hogi.

Examples:

Patient Name

Phone Number

Address

Aadhaar Information

Hospital Patient ID

Recognizable Patient Photo

Other Direct Patient Identifiers

Clinical discussion post create karte waqt doctor ko confirmation dena hoga ki patient-identifying information remove ki gayi hai.

Platform me reporting aur moderation system available hoga.

12. Specialty Communities

Doctors apni medical specialization ke according professional communities join kar sakenge.

Examples:

General Medicine

Cardiology

Neurology

Radiology

Anesthesiology

Pediatrics

Dermatology

Orthopedics

General Surgery

Emergency Medicine

Critical Care

Psychiatry

ENT

Ophthalmology

Obstetrics and Gynecology

Community ke andar doctors:

Professional posts share kar sakenge.

Clinical discussions participate kar sakenge.

Research discuss kar sakenge.

Professional opportunities discover kar sakenge.

Initially communities platform administrators create karenge.

Users ko custom public communities create karne ki permission first version me nahi hogi.

MODULE 2

DOCTOR CAREER MARKETPLACE

Platform ka second major module doctor jobs aur hospital recruitment ke liye hoga.

Is module ka objective doctors aur hospitals ke beech recruitment process ko simple aur structured banana hai.

13. Hospital Professional Profile

Har hospital ka professional profile hoga.

Hospital profile me:

Hospital Name

Hospital Logo

Verification Status

Hospital Type

Location

About Hospital

Number of Beds

Departments

Hospital Facilities

Active Doctor Vacancies

show ki jayengi.

Doctors hospital profile view aur follow kar sakenge.

Verified hospitals ko verification badge milega.

14. Doctor Job Marketplace

Hospitals doctor-specific vacancies post kar sakenge.

Example:

Medical Officer

Emergency Department

Location: Noida

Qualification: MBBS

Experience: 2+ Years

Salary: ₹80,000 to ₹1,00,000

Shift: Night Shift

Joining: Immediate

Doctors jobs browse kar sakenge.

Job sections:

Recommended Jobs

Nearby Jobs

Urgent Jobs

Saved Jobs

Applied Jobs

15. Smart Doctor-Job Matching

Platform doctor profile aur job requirement ko compare karega.

Example:

Hospital Requirement:

MBBS Doctor

Emergency Experience

2 Years Experience

Noida

Immediate Joining

Doctor Profile:

MBBS

3 Years Experience

Emergency Department Experience

Delhi NCR Preferred

Immediate Availability

Platform show karega:

92% Profile Match

Matching factors:

Qualification Match

Specialization Match

Experience Match

Location Preference

Availability

Job Type Preference

Doctor ko clearly bataya jayega ki job uske profile se kitni match karti hai.

Hospital ko suitable doctors recommend kiye jayenge.

Initial product me transparent matching rules use honge.

Future versions me advanced AI-assisted matching add ki ja sakti hai.

16. One-Tap Job Application

Doctor ka professional profile uska primary career profile hoga.

Doctor job par:

Apply

button click karega.

Doctor ko repeatedly long application forms fill nahi karne honge.

Doctor ka professional profile hospital ke saath share hoga.

Doctor optionally CV attach kar sakega.

Application process fast aur simple hoga.

17. Job Application Tracking

Doctor apni application ka status track kar sakega.

Application stages:

Applied

Profile Viewed

Shortlisted

Interview

Offered

Hired

Rejected

Withdrawn

Example:

ABC Hospital

Medical Officer

Applied — Completed

Profile Viewed — Completed

Shortlisted — Current Status

Interview — Pending

Offer — Pending

Is feature se recruitment process doctors ke liye more transparent hoga.

18. Hospital Recruitment Dashboard

Hospitals ke liye web-based recruitment dashboard hoga.

Hospital dashboard par information show hogi:

Active Jobs

New Applicants

Shortlisted Doctors

Upcoming Interviews

Urgent Requirements

Hospital HR jobs manage kar sakega.

HR:

Job create karega.

Applications view karega.

Doctor profiles view karega.

Doctors shortlist karega.

Application status update karega.

Doctor se professional communication karega.

19. Candidate Discovery

Hospitals doctors ko search kar sakenge.

Search filters:

Qualification

Specialization

Experience

Location

Verified Doctors

Professional Status

Available Now

Open to Work

Locum Available

Visiting Consultant

Example:

Hospital search kare:

Verified MBBS doctors in Delhi NCR who are currently open to work.

Platform matching doctor profiles show karega.

Sensitive career information ki visibility doctor ke privacy preferences ke according control ki jayegi.

MODULE 3

DOCTOR AVAILABILITY EXCHANGE

Ye platform ka major differentiating module hoga.

Iska objective hospitals ki temporary aur urgent doctor requirements ko available doctors se connect karna hai.

20. Current Industry Problem

Hospitals me unexpected doctor shortages regularly ho sakti hain.

Example:

Anesthesiologist unavailable.

Night duty doctor absent.

Emergency department me additional doctor required.

Visiting consultant unavailable.

Temporary specialist requirement.

Currently hospitals frequently:

WhatsApp groups

Phone calls

Personal references

Recruitment agents

use karte hain.

Hospital ko structured way me nahi pata hota ki kaunsa verified doctor currently available hai.

Doctor Availability Exchange isi problem ko solve karega.

21. Doctor Availability

Doctor platform par apni professional availability set kar sakega.

Availability Types:

Locum

Visiting Consultant

Temporary Coverage

Part-Time

Doctor define karega:

Available Dates

Available Time

Preferred Work Location

Preferred Work Radius

Availability Type

Minimum Preferred Compensation

Example:

Available for Locum

13 July to 15 July

8 PM to 8 AM

Preferred Radius: 50 KM

Minimum Preferred Compensation: ₹8,000

Sensitive compensation preference public nahi hogi.

22. Availability Calendar

Doctor calendar ke through available dates select kar sakega.

Example:

13 July — Available

14 July — Available

15 July — Available

16 July — Not Available

Doctor all-day availability ya specific time availability choose kar sakega.

Doctor apni availability anytime update kar sakega.

23. Hospital Urgent Requirement

Hospital urgent doctor requirement create kar sakega.

Hospital provide karega:

Required Specialization

Required Qualification

Date

Start Time

End Time

Hospital Location

Compensation

Number of Doctors Required

Urgency Level

Additional Notes

Urgency Levels:

Normal

Urgent

Immediate

Example:

Anesthesiologist Required

Location: Noida

Date: 13 July

Time: 8 PM to 8 AM

Compensation: ₹15,000

Urgency: Immediate

24. Availability Matching

Platform hospital requirement ko available doctor profiles ke saath match karega.

Matching factors:

Doctor Verification

Specialization

Qualification

Available Date

Available Time

Professional Location

Preferred Work Radius

Locum Availability

Example:

12 Matching Doctors Found

Hospital suitable doctors view kar sakega.

Hospital doctor professional profile review kar sakega.

25. Professional Shift Request

Hospital available doctor ko professional shift request bhej sakega.

Doctor ko notification milegi.

Example:

New Professional Opportunity

ABC Hospital

Anesthesiologist Coverage

13 July

8 PM to 8 AM

Noida

Compensation: ₹15,000

Doctor actions:

Accept

Decline

Doctor accept karta hai.

Hospital ko acceptance notification milti hai.

Hospital doctor ko final confirm karta hai.

Request status:

Requested

Accepted by Doctor

Confirmed by Hospital

Completed

Cancelled

Isse urgent doctor requirement structured aur trackable ho jayegi.

26. Professional Messaging

Platform par professional messaging available hogi.

Communication types:

Doctor to Doctor

Doctor to Hospital

Messaging features:

Text Messages

Images

Professional Documents

Job-related communication aur shift-related communication platform ke andar manage ki ja sakegi.

Platform communication professional use ke liye design ki jayegi.

27. Notifications

Doctors aur hospitals ko important professional notifications milengi.

Examples:

Connection Request

Connection Accepted

Post Interaction

New Message

Recommended Job

Application Update

Interview Update

Shift Request

Shift Accepted

Shift Confirmed

Verification Update

Notifications app ke andar bhi available hongi aur important events ke liye push notifications use ki jayengi.

28. Search and Discovery

Platform par universal professional search available hoga.

Search categories:

Doctors

Hospitals

Jobs

Specialty Communities

Doctor search filters:

Doctor Name

Specialization

Qualification

Location

Experience

Verification Status

Professional Status

Hospital search:

Hospital Name

Location

Hospital Type

Departments

Job search:

Specialization

Qualification

Location
Job Type
Shift Type
Experience

29. Privacy and Professional Controls

Doctor privacy platform ka important part hogi.

Doctor control kar sakega ki uski professional information kaun dekh sakta hai.

Profile Visibility:

Everyone

Doctors Only

Connections Only

Career Opportunity Visibility:

Verified Hospitals

Selected Hospitals

Hidden

Doctor phone number publicly visible nahi hoga.

Personal email publicly visible nahi hoga.

Expected compensation publicly visible nahi hogi.

Detailed availability primarily verified healthcare institutions ke liye visible hogi.

Doctor kisi user ko block ya report kar sakega.

30. Reporting and Moderation

Platform par professional reporting system available hoga.

Doctor Profile Report Reasons:

Fake Doctor

False Credentials

Spam

Harassment

Professional Misconduct Concern

Other

Post Report Reasons:

Patient Privacy Concern

Potential Medical Misinformation

Spam

Harassment

Copyright Concern

Other

Platform moderation team reports review karegi.

Serious professional or safety issues ke liye content ya account restriction process hoga.

31. Platform Admin

Platform administrators complete platform manage karenge.

Admin responsibilities:

Doctor Verification

Hospital Verification

User Management

Post Moderation

Report Management

Community Management

Job Monitoring

Suspicious Activity Review

Account Restrictions

Support Management

Admin platform quality aur professional trust maintain karega.

32. Revenue Model

Doctors ke liye platform initially free hoga.

Doctor registration, professional profile, networking aur job application free honge.

Revenue primarily hospitals aur healthcare institutions se generate kiya jayega.

Free Hospital Plan

Enterprise Workforce Solutions

33. Initial Product Scope

First version ka focus sirf doctors aur hospital workforce hoga.

Initial product me include hoga:

Doctor Registration

Doctor Verification

Doctor Professional Profile

Professional Status

Doctor Search

Doctor Network

Doctor Professional Feed

Professional Posts

Comments

Specialty Communities

Hospital Profiles

Doctor Jobs

Smart Job Matching

One-Tap Application

Application Tracking

Hospital Recruitment Dashboard

Candidate Management

Doctor Availability

Availability Calendar

Urgent Hospital Requirements

Availability Matching

Professional Shift Requests

Professional Messaging

Notifications

Privacy Controls

Reporting

Platform Administration

34. Features We Will Not Build Initially

Initial product me hum following features intentionally include nahi karenge:

Telemedicine

Patient Application

Doctor Appointment Booking

Online Prescription

AI Diagnosis

Pharmacy

Hospital ERP

Hospital Billing

Payroll

Attendance

Nursing Recruitment

Medical Student Community

Online Courses

Video Consultation

Insurance

International Recruitment

Humara initial focus clear rahega:

Doctors' professional networking, career opportunities and healthcare workforce connectivity.

35. Product Growth Strategy

Product ko initially entire India me aggressively launch karne ke bajaye focused network strategy use ki jayegi.

Initial launch ek selected geographic region me kiya ja sakta hai.

Example:

Delhi NCR

Western Uttar Pradesh

Nearby healthcare markets

Initial objective:

Doctors onboard karna.

Doctor profiles verify karna.

Hospitals onboard karna.

Real vacancies publish karna.

Availability Exchange test karna.

Hospital hiring problems understand karna.

First 10 to 20 hospitals ko closely onboard kiya jayega.

Platform team hospital HR se directly feedback collect karegi.

Doctors se professional networking aur job discovery experience ka feedback collect kiya jayega.

Product real user behaviour ke according improve hoga.

36. Product Network Effect

Platform ka growth cycle hoga:

More Doctors Join

Stronger Doctor Professional Network

More Verified Professional Profiles

Hospitals Get Better Doctor Discovery

More Hospitals Join

More Jobs and Professional Opportunities

More Doctors Join

More Availability Information

Better Workforce Matching

Higher Platform Value

Community doctor engagement create karegi.

Jobs doctor acquisition create karenge.

Hospitals revenue create karenge.

Availability Exchange product differentiation create karega.

37. Long-Term Vision

Long-term me platform India ka doctor professional infrastructure ban sakta hai.

Future modules product validation ke baad add kiye ja sakte hain.

Possible future features:

AI Career Assistant for Doctors

AI Recruitment Copilot for Hospitals

Professional Reputation System

Medical Conference Discovery

CME Discovery

Research Collaboration Network

Doctor Referral Network

Advanced Workforce Analytics

Hospital Workforce Forecasting

Credential Management

Professional Document Wallet

Multi-Hospital Workforce Network

The long-term objective is not to create another generic job portal.

The objective is:

To create the professional identity, network and workforce infrastructure for doctors.

38. One-Line Product Explanation

Agar koi pooche:

"What are you building?"

Answer:

We are building a professional and workforce network exclusively for doctors, where verified doctors can build their professional identity, connect with the medical community, discover career opportunities and share their professional availability, while hospitals can discover, hire and connect with the right doctors.

Simple Hindi explanation:

Hum doctors ke liye ek dedicated professional network bana rahe hain jahan doctors apni verified professional identity aur network build kar sakte hain, jobs discover kar sakte hain aur apni professional availability share kar sakte hain. Hospitals isi network se suitable doctors ko discover, hire aur urgent requirements ke liye connect kar sakte hain.

39. Product Positioning

Hum LinkedIn ko replace karne ki claim nahi karenge.

Humara positioning hoga:

Built exclusively for the medical profession.

Doctor ke professional data, career intent aur availability ko deeply understand karne wala professional network.

LinkedIn is a professional network for everyone.

Our platform is a professional and workforce network built specifically for doctors.

40. Core Product Promise

For Doctors:

Build your professional identity. Grow your medical network. Discover better career opportunities.

For Hospitals:

Discover and connect with the right doctors, when you need them.

Platform:

The Professional & Workforce Network for Doctors.
